Montana COVID Relief Fund Reporting

COVID grants received from various sources each have their unique reporting requirements. One common element of the grants is there is no ‘double dipping’ and expenditures cannot be applied to more than one grant. Regulations for the Paycheck Projection Program (PPP), as part of the CARES Act were revised multiple times during the summer and those loan forgiveness applications are starting to be accepted.

Organizations who've received Coronavirus Relief Funds (CRF) from the state of Montana must submit an interim report by 11/16/2020 through their account on the ‘Submittable’ portal of the CRF website. An email should have been received from State of Montana with the access to the interim report form.
